REPEAT

There are 2 times in the song that an instrumental section is played. At the end of each instrumental section there is a 16 beat music lick. Each time you get to this you will do toe, heel rambles....they will begin traveling to right with heels, toes, heels, toes then to left with toes, heels, toes, heels & repeat sequence. After the first instrumental you will dance the entire dance 2 times through. After the 2nd complete time you will do the last 16 steps of the original dance 1 more time....they sing "She's got my number, she knows all my tricks" 2 times....It's much easier than this sounds; just listen carefully to the music.
